ORIGINE

Premium Architectural
Porcelain Surface Collection

INTRODUCING ORIGINE

CRAFTED SURFACES, NATURAL LUXURY

ORIGINE is a flagship porcelain surface collection inspired by the raw beauty of natural stone, earth-formed textures, and refined neutral tones.

Created for premium indoor and outdoor living, the series is available across large architectural formats, offering the visual impact of natural stone with the durability, consistency, and practicality of high-performance porcelain.

From expansive slabs to large-format floor and wall applications, ORIGINE has been designed for luxury landscapes, pool surrounds, terraces, feature walls, interiors, façades, and refined architectural spaces.

The collection is built around six distinctive surface identities - Summit, Dune, Strata, Vale, Ridge, and Lume - each selected to bring a different expression of natural stone into contemporary design.

ORIGINE is not simply a tile collection. It is a foundation for timeless architectural living - natural in character, refined in finish, and built for spaces that demand presence.

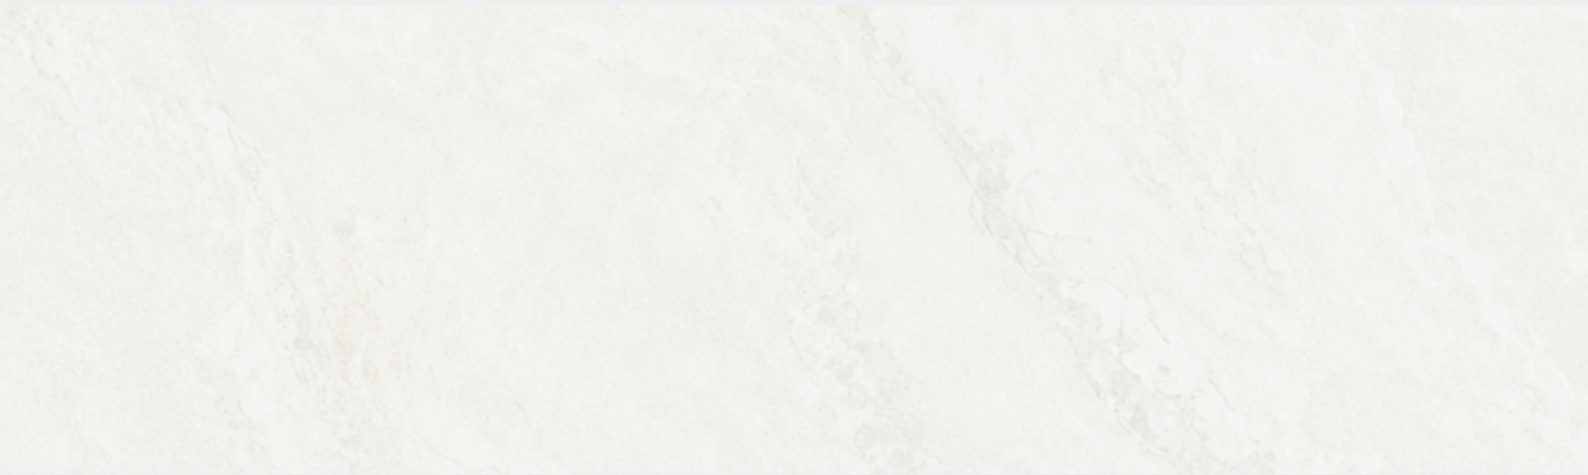

TEODORO
TILES & MOSAICS

SUMMIT

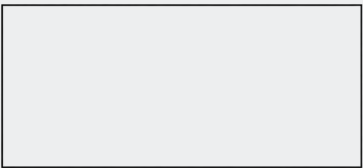

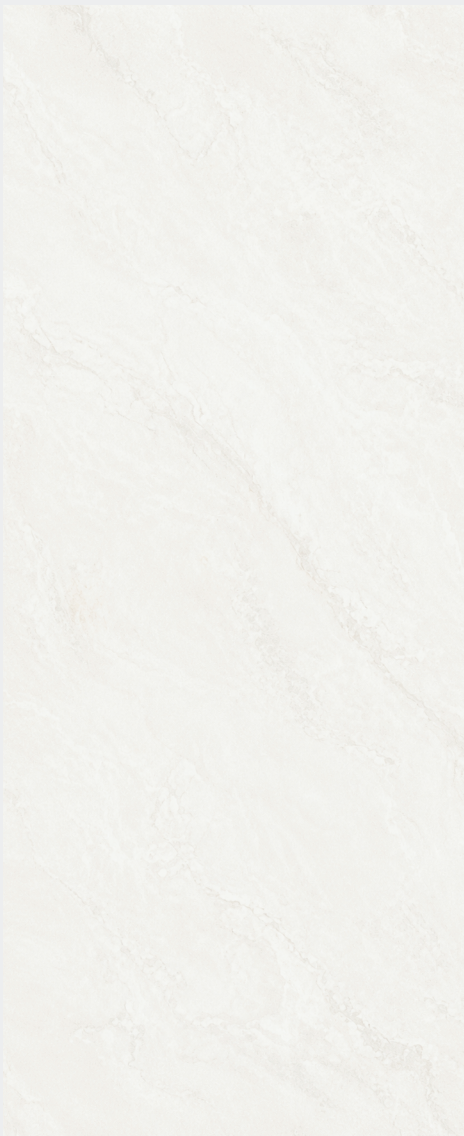

A BOLD STONE EXPRESSION WITH ELEVATED
PRESENCE AND ARCHITECTURAL STRENGTH.

SIZE: 3200x1600mm / 1200x1200mm
